

Wonder Valley Outdoor Education Cabin List

Groups with the same Animal name will be paired together for most activities. Animal names are subject to change, though the groups listed will still be paired together. Final room assignments on property will be given out the day of arrival. Please note, all cabin lists have up to 9 lines to assign students. We require a 1:8 teacher to student ratio, however, we do understand that there are times when one bunk may need to house an extra student.

This first page is to note any teacher or administration rooms needed other than chaperones housed with students. We understand that there are often school officials and teachers coming on your trip that are not acting as a chaperone for a group of students specifically. We need to plan to set these rooms aside, please note them below.

Please make sure to turn this list in as soon as possible, and no later than 2 weeks prior to arrival. Please note that a final schedule will not be made until cabin lists have been turned in. Once turned in, please notify Wonder Valley if any changes need to be made.

Administrator or Teacher Rooms

1. _____ Accesible? _____
